BEWARE MINORS

Since the article on hot peep shows, which appeared here a few issues ago, and which brought in a large number of letters, wires and phone calls all commending The Cash Box on its vigorous and instant action to cure this evil, there has come to light the fact that certain coinmen seem to have forgotten the first basic factor for safe operation - keep amusement equipment of certain types away from minors.

For years this has been the outstanding watchword of this industry. It now seems that some coinmen, perhaps due to general conditions being so hectic and so little supervision being practised because of lack of manpower, are now allowing such equipment as consoles, pins, slots, etc., to be located where they can easily be played by minors.

Coinmen will surely remember back in the late '20's when much coin equipment was lost and complete towns closed because of just such neglect. Penny play machines and the fact that certain equipment was placed near schools encouraged minors to play. From those days to this there has been an unwritten law against this sort of coin machines play action.

Those coinmen who now seem to have neglected this fact endanger the entire industry. As is well known, the juvenile delinquency problem is ravaging the nation. It has even attracted the attention of the FBI. This grave problem has also attracted the attention of outstanding public figures from coast to coast. Most of these people are not the raving, hysterical speech making politicos nor blue-noses. They are usually the more respected people in their communities. They are the type of people who can instantly close an entire territory to certain types of coin operated equipment were they to come across any such locations where minors are allowed to play.

Perhaps the location owner is entirely responsible. He is, in most cases, more to blame than the operator. Yet, this is no excuse before the law. Therefore it is up to the operator himself to clean up this situation before it cleans him out of the territory in which he is operating. For some weeks now cases of this sort of careless operating have been called to the attention of The Cash Box. These culminated in the demand that this evil, too, be brought into the open by The Cash Box from a great many leaders thruout the country, especially after the article on the hot peeps appeared.

It just doesn't seem possible that after all these years of educational endeavor on the part of associations and leaders in this industry that some operators will let go to such an extent. Not only endangering their own livlihood, but also the livlihoods of every coinman in their territory. It took many years and much harsh police action to relieve such situations. Let it be said to the credit of the average coin machines man that he instantly adopted a voluntary censorship. Most coinmen to this day have prominent signs on their machines as well as thruout their locations, stating, "No minors allowed to play."

Many coin machines associations have even purchased framed signs of this kind and distributed them to their complete membership, and even to non-members, for prominent display thruout every location. They have also cooperated to the fullest extent with all juvenile authorities. They have made it their business to do everything possible to discourage minors from playing any type of amusement equipment. This is the first cardinal rule of everyone engaged in this industry - at least that part of this industry that has to do with amusement devices - keep minors away at all costs. Even to the extent of removing machines from locations where location owners will not completely cooperate.

It is the hope of The Cash Box that those same leaders who jumped to the fore to immediately help stamp out questionable films from any of the peep show conversions in their territories, will act just as speedily and vigorously, for their own protection, where they find children playing games which may arouse the ire of those many good people thruout the country who are endeavoring to cure the juvenile delinquency problem. At least before this sort of careless operating can crash an entire territory and cause tremendous injury to all concerned.

"The Coin Machines Merry-Go-Round"

PATRIOTIC TO PLAN POST-WAR

For sometime now The Cash Box has been pointing the way; explaining surrounding industrial and financial circumstances; depicting many commercial factors about the coming post-war era and what all these will mean to the coin operated machines industry. This has brought into the open the question, "Is it patriotic to present post-war plans at this time?" (Meaning, "Let's win the war first.")

We believe that it is patriotic. We know that all war eventually leads to peace. And that the coming peace must have factories at work to maintain the tremendous number of employees now in force as well as make room for the returned soldier so that the peace will be enduring. We do feel, most earnestly, that post-war planning now is extremely important.

A great many people are going to enter into this industry when the war is over. Every coinman thruout the nation can probably point to 2 or 3 or many more people who are depending on him for jobs after the war. Soldiers who are now in the grime and mud and danger of the front lines are thinking of the time when they will come back to someone's office, shop or warehouse or will go out selling for some coinman. This is their dream and their hope of earning a decent livlihood again. It is because of these men and the many others who are going to enter into this industry that The Cash Box has presented articles, from time to time, on how the men in this business can best plan for the post-war era.

It is an accepted fact thruout the trade that this industry will enjoy its greatest growth after the war. The trailer industry meeting last year decided to construct over 50,000 new trailer camps thruout the country. These mean so many more locations for almost every type of coin operated machine. The music men believe that eventually some years after peace arrives, there will be over 1,000,000 music locations in the nation. The automatic merchandiser firms feel that their business will lead this industry to greater national acceptance. The arcade owners believe that they have most definitely established themselves as a part of the great American entertainment scene and look forward to a development consisting of "theatres of amusements" for the post-war era. Whether coinmen are connected with bulk merchandisers, drink vendors, candy vendors, cigarette machines, slot machines, pin games, consoles, or music equipment, each believes that his division of this industry is going to be outstanding after the war.

This is as important as it is impressive. Each one of these men wants to know what to expect in the post-war era, so as to be able to somewhat prepare himself. And each one of these men deserves as good and logical an answer as he can get. The trade also realizes that with new blood entering into this industry, and probably in larger numbers than ever before in its history, that more competition can be expected. Those men who have carried the coin machines banner on high during this tragic and hectic war period are eager and even anxious to maintain the lead which many have already established. Everyone also pictures the post-war era as an age when the price of machines, at least for the first few years after the war, will be extremely high compared to what they were in pre-war years.

Many are therefore concentrating their attention now on arranging for a 70%-30% commission basis agreement in their territories. Others are placing away as large a financial reserve as they possibly can. Many hope to obtain distributorships. Some are already enlarging their offices, showrooms, repair departments, warehouses, etc., to be fully prepared for the entrance of the post-war era.

The stories of more roll-backs and cut-backs of production that come thru the news each day have caused many to believe that some sort of manufacturing may be seen long before the final shot is fired. This becomes more and still more positive as the larger manufacturers begin to press for some sort of program. The Baruch report just submitted to the president favors such a partial resumption of domestic production so that gradual return to all domestic production will not prove upsetting to the nation's economy.

It is the belief of The Cash Box that this industry is already in the post-war era as far as planning is concerned. And this is tremendously patriotic from every standpoint. This industry is already preparing to employ the returning soldier. It would, like all Americans everywhere, hate to see apple boxes on the sidewalks of every large city, soup kitchens to provide a meal a day, or the many charities that were strained to the breaking point after the last war, because of lack of proper post-war planning.

Among the most patriotic actions which this coin machines industry can perform at this time is to continue its post-war planning. Doing so will assure this one part of American industry being fully prepared for the returning soldier and for those people who will seek new businesses when their jobs are gone, as well as helping to retain as much as possible the present gigantic employment figure of this nation's industries.

PATRIOTIC TO PLAN POST-WAR

"The Coin Machines Merry-Go-Round"

HERE'S A NEW OPERATOR

For sometime now reports have come to us that in many territories new operators are already being created. It wasn't until this past week that we met one of these new operators. We found him to be a young man and an employee in a large war plant. We learned that he earned an average of $50.00 per week for an 8 hour daily shift in this plant. We also learned that he was an expert mechanic. And that he had just purchased a route of 15 phonos which were bringing him approximately $150.00 per week for his own end.

This new operator was tremendously impressed with the coin machines business. In fact, he was 100% sold on this business. He doesn't believe now that a better business exists anywhere. He gave us the complete history of his purchase, which wasn't at the time more than seven weeks old. He feels that this is only a beginning. He wants to expand and has many ambitious plans.

We learned that he paid $5,000.00 for this route of 15 phonos. The route is composed of the following: 2 Rockola '39 Standards; 2 Rockola '39 DeLuxes; 4 Wurlitzer 500; 2 Wurlitzer 600K; 3 Wurlitzer 700 and 2 Wurlitzer 24. At present highest market prices these machines could be purchased for about $3,000.00. He had therefore paid $2,000.00 for the 15 locations, good will, etc. He considers this a very fair purchase price.

With the average he is enjoying from these 15 phonos, in addition to his factory earnings, and the further fact that he paid 50% cash immediately for the route and will pay the balance in monthly notes over a 6 months period, causes this man to be tremendously impressed with this industry. In less than 12 months he will have his investment back. In that time, as the trade realizes, he will have become a full fledged operator. And since he already desires to purchase more equipment, there is no doubt that by the time his first year in this business is over, he will have grown to much larger proportions.

"I can get many more locations," he claims, "but I can't get machines. What's more I don't go into locations where I see other machines already working. I believe that we should work together. Just like our union makes us work together down at the factory. I don't want anyone walking in to get my locations and I don't want to go into anyone else's places."

Here, in a few words, is something that should lead to great thought concerning the new blood that will enter into this business after the war. Here is a factory worker inculcated with union ideas which have hammered home to him the need for cooperation. He doesn't believe in entering locations where others already have equipment. He would much rather buy the spot. And similarly, he doesn't want others to upset his locations.

Many issues ago The Cash Box reported that the new blood which would enter into this industry would demand a great deal from this business, never before asked from it. These men, such as this factory worker, who have learned to work together in close cooperation, whether it be because of unionization or because of the teamwork taught in the armed forces, may bring about a better understanding among coinmen in every territory in the nation.

HONORABLE MENTION

To Ben Axelrod of Olive Novelty Company, St. Louis, Mo., for his efforts in behalf of all this industry and the grand work that he is doing so unselfishly.

To Thos. H. Crosby of Gopher Sales Company, Faribault, Minn. for the marvelous work that he, too, is doing in behalf of this industry, unselfishly, vigorously and so energetically.

SPRING SPECIAL

It's thrilling to walk out of the house in the early morning and be surprised by the lack of sharp and biting winds. To suddenly feel a warm and caressing breeze. To smell green things trying hard to come thru wet earth. And the smell of the earth itself. To discover bluer skies. To hear birds chirping vigorously. To see smiles on people's faces. To somehow stroll, instead of hurrying along. To think of golf clubs, fishing tackle, sport shirts, picnics, light clothes. That's Spring in the air. The sudden awakening that makes this one season of the year everyone's favorite. And that, too, is the one season when coinmen begin to look forward to new events. New plans. Foresee new and larger vistas. Dream about tomorrow. And see ways and means to get into faster action. It's Spring, 1944. And from all prophecies and reports - all believe that this will be one of the grandest and greatest Spring seasons in the history of this industry. All this will be incorporated into that one impressive and outstanding annual "Spring Special" issue of The Cash Box. The one issue in which it will pay your firm to feature a magnificient ad. All printed page and half page ads for this issue close this week on March 1st.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY

ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N.Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN SAME WEEK.
5. MEANS PRICES REMAINED SAME AS IN PAST WEEK'S ISSUE.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER.

IMPORTANT

Machines underlined mean these were most active in trading this past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
